ACTIVE ARMY CASUALTIES

Ottawa, April 28. — Eight Canadian soldiers, believed to be members of the Hong Kong garrison which surrendered to the Japanese Christmas Day, 1941, have been killed in a typhoon while prisoners of war, the Canadian (Active) Army reported today in its 453rd casualty list of the war, containing 153 names.

Defence Headquarters declined to comment on the prisoner casualties but the assumption they were part of the Hong Kong garrison was drawn from the fact they were listed in the casualty list as members of a Quebec regiment, a Manitoba regiment and forces headquarters—units which were at Hong Kong.

(The Hong Kong units were the Royal Rifles of Canada, the Winnipeg Grenadiers and Force Headquarters.)

The list also included one officer and 11 other ranks killed in action, one officer and nine other ranks dead and three other ranks dead of wounds.

According to Culbertson

North in today's deal thought that he was giving his partner plenty of encouragement toward a slam, but finally his efforts were sadly misdirected.

South, dealer.
North-South vulnerable.

The bidding:
South West North East
1spade Pass 3spades Pass
4diamonds Double 4hearts Pass
4spades Pass Pass Pass

Obviously, South could lay the hand down for 13 tricks so the contract was not all that could be desired.

North wanted to know why South had "signed off" at four spades after the strong support given him by North. South answered, with telling simplicity, that when the four diamond bid, which he had not course intended as purely exploratory, ran into the double from West, and North had not been able to offer any reassurance about diamond losers, South had had to abandon hope for even a small slam. No matter how much strength North might have in spades, hearts, and clubs, he might also have two little diamonds that would be immediate losers.

South's point of view was certainly understandable. The crux of the bidding was for North to counter West's double of four diamonds, and that was easy! North should have bid five diamonds, directly over the double. His failure to redouble would be a clear message that he didn't really like the suit, and thus, from the basis of pure logic (aside from convention)
